

COMENIUS MEETING

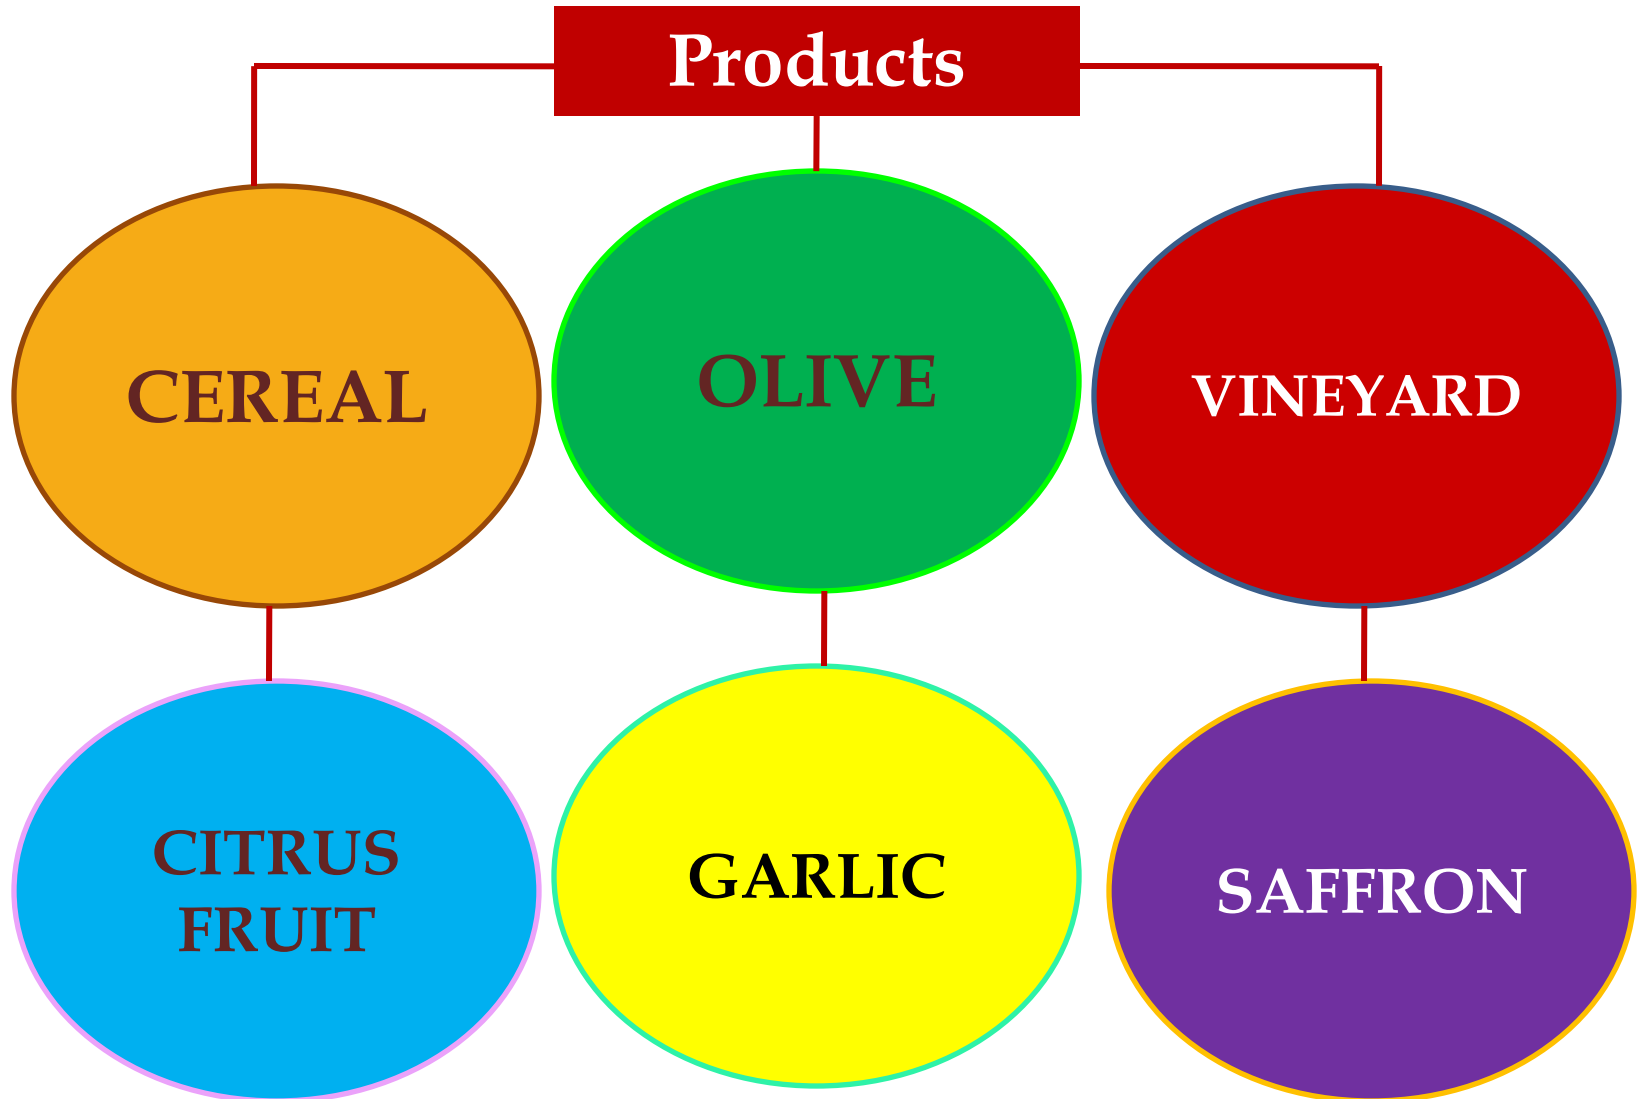

SHOP, EAT AND PRODUCE BY THE COLOURS

Belgium, Italy, Germany, Poland, Spain and Turkey, meet in

Albacete – SPAIN (20th - 24th April 2015)

SPAIN shops, eats and produces by the colours

Students creating maps of crops grown in different areas

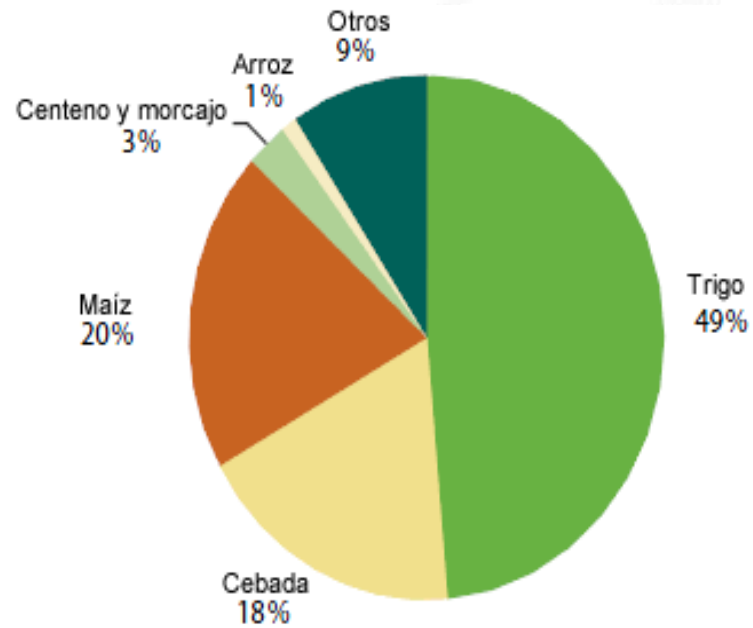

CEREALS

Spain has increased its cereal production over the last five years.

- Spain does not produce all the total amount of cereals needed, that is why it imports some, mainly from European Union markets.

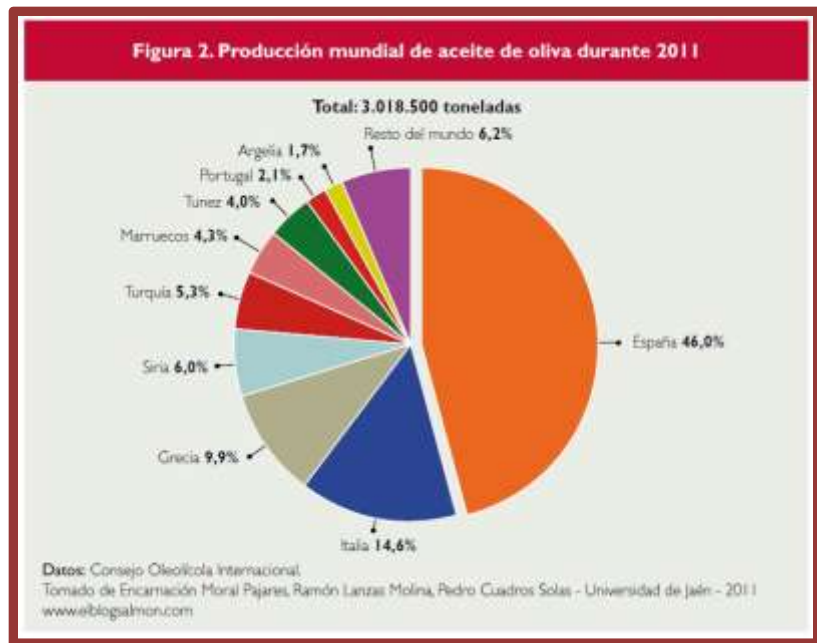

OLIVE TREES

Spain is the first producer of olive oil in the world

- In Spain, the surface dedicated to this crop is about 2.5 million hectares.
- The main consumer countries are: Italy, France, USA and UK.
- Andalucía is the main producer of olive oil with 30% of the total production.

VINEYARDS

Spain is the first producer of wine in the world

- Its major competitors are France and Italy.
- These three countries produce almost half of all the wine produced in the world.

CITRUS FRUITS

Spain is the largest orange production country in the European Union

- . Our country produces about 4,000 million tonnes of oranges per year.
- Of this amount, almost 50% is exported.
- France, Germany and United Kingdom are the main destinations.

GARLIC

Castilla-La Mancha is the first garlic producer region in Europe

- More than 50% of the whole production in Castilla-La Mancha takes place in the village of Las Pedroñeras.
- China is the first garlic producer in the world.

SAFFRON

In Castilla-La Mancha 30% of the world's saffron is grown

- The only competitor for Castilla-La Mancha in saffron cultivation is Iran.
- Lots of youngsters and unemployed people find in saffron a way to make their living.
- Its price adds up to 3,000 € per kilogram.

workers**

ORGANIC FOOD - WINE

ORGANIC FOOD - GARLICS

1. It has been produced for 10 years

2. Neither pesticides nor fertilizers are used

3. They are exported to Germany, France, Denmark and Brasil.

4. Principal competitor: China.

5. Customers are made in fairs

6. The purple garlic from Las Pedroñeras is of an excellent quality

7. The price is high due to the special certifications needed
